

# Sydney Alliance to Avert Desalination

Save Money, Energy and Botany Bay!

# PUT DESALINATION ON HOLD!

We don't need it. Our dams are 60% full! It will cost heaps!  
The Government is spending \$1.76 BILLION which will add  
\$100 to everyone's yearly water bill to pay for it!  
The Government is ignoring expert advice that water saving  
and recycling would make desalination unnecessary!

# JOIN THE PROTEST WEDNESDAY SEPT. 12

Leading speakers will discuss Community, Political,  
Environmental and Scientific opinion.

6:00 FOR 6:30 START (till 8:00 pm)

University Hall, University of Technology, Broadway, Sydney.  
Entry from Harris Street. Admission free.

This is also your opportunity to protest against the NSW  
Government's new planning laws which can override community  
challenges to this and other irresponsible decisions.  
The Premier and Water Utilities Minister have been invited to attend  
and justify the desalination project and why it is being rushed.
